walls.
"Great God, look at that!" he exclaimed as he broke open a piece of ore plastered with free gold.

The expression was repeated with every successive piece of rock that he broke down, Fox said, it was really the only expression of opinion concerning the merit

down, Fox said, it was really the only expression of opinion concerning the merit of the property, that he heard him make. The showing is truly phenomenal as Mr. Fox describes it. There is a two-foot face of ore which shows free gold all through it, and within that body is a seam probably an eighth of an inch thick which is nearly all gold.

Samples of the rich stuff are given freely to all visitors, who are there in great numbers, but to prevent wholesale high-grading a fence has been built around the shallow shaft and a guard is kept on duty all the time.

The ledge has been opened by the sinking of holes at intervals for a distance of about fifty feet, and it is said that the rich ore is in evidence for that distance, Arrangements for systematic develop-

Arrangements for systematic develop-ment are being made as rapidly as pos-

Fox Has Good Showing.

The big strike is only 700 feet east of the Golden Bee group of claims, owned by Mr. Fox and associates. In his Iron canyon group, just over the ridge from thiladelphia canyon, Mr. Fox has showing that would be regarded out of the ordinary were it not overshadowed by the one in Philadelphia canyon. In a shaft sixty feet deep he has thirty inches of ore which he says averages not less than \$150 a ton. From various openings on the same vein he has taken several carloads of ore which has run about \$70 a ton in gold. He is now driving a tunnel which will attain a depth of 150 feet under the shaft. There are large quantities of milling ore in the district, he says—stuff that runs from \$10 to \$20 a ton—and, whether the present promise of a high-grade camp The big strike is only 700 feet east of the

SIOUX CON. IS

One Who Sees Golconda Strike Net Advance in That Stock, Cumberland Ely Has Nice Inand Some Others Are Stronger.

During his latest visit to the mines in The mining stock market yesterday dis- The Cumberland Ely Copper company Iron and Philadelphia canyons, south of Golconda, Nev., Jesse Fox of this city, witnessed the phenomenon of a cold-blooded mining expert getting excited over a gold strike. Herriman, geologist of the Union Pacific Railway company, had been sent by leading officials of the railway company, who are large owners of the Nevada-Omaha Mining company, to inspect the property recently taken over by them.

The expert, when Fox saw him, was in a ten-foot hole on the vein examining rock as he picked it from one of the walls.

"Great God, look at that!" he exclaimed if the mining stock market yesterday displayed some additional strength, although played some additional strength, although presents the unusual example of a mining company making money when its mine is idle. Although Cumberland Ely has not mined a pound of ore since last July 1, on account of a labor strike at the Veteran mine, the company is in improved condition financially.

Colorado held at \$1.40g\$1.42½, Grand Central was firm at \$2.42½. Columbus Consolidated was weak at 90c to 85c and a bear raid on Carisa sent that stock from 80c to 75c.

Total number of shares sold, 82,720; value, \$33,533.37. Total for the month, 2, 803,276 shares sold; value, \$1,066,412.63.

COLBATH STRIKES ORE IN PIOCHE PROPERTY

Report that a good strike has been made heport that a good strike has been made in the Foster mine at Pioche, of which Alex. Colbath is manager, was received in this city yesterday. Four feet of ore, believed to be the extension of the famous Meadow Valley vein, has been uncovered. The Foster is owned largely by Colbath and D. D. Houtz of Provo.

come From Interest in Industrials.

wo months as a result. When this work has been completed the Cumberland Ely company will not owe a dollar and will have \$500,000 of cash on hand.

Through its three-eighths ownership in the Steptoe smelter, and a one-half interest in the Nevada Northern railroad, the company is in receipt of about \$650,000 over annum, equal to about 50 cents per share for its stock.

The Guggenheim interests deny that the Cumberland Ely company is being made. umberland Ely company is being made to stand the burden of the labor strike or the benefit of the Nevada Consolfated, which latter company is temporary using the Cumberland Ely capacity in the Stanton will and smaller. Steptoe mill and smelter.

Ore at Samplers.

Ore receipts, by carloads, reported yes-erday by the samplers: Pioneer-Utah, 3; aylor-Brunton-Utah, 5. BOSTON AND NEW YORK

ST. LAWRENCE IS

In Interest of Plans for Further Development, Says Owner.

F. P. Swindler, well known mining ex-

CAN'T RELOCATE GROUND. New Ruling of Land Office Is Generally Approved.

Even mining men who may have taken advantage of the laxity of the mineral land location laws which have permitted the holding of ground for years without development, simply by the locator being on hand to set new stakes every first day of January, are compelled to admit the justice of the new ruling of the land office by which the holder of ground upon which legal development work has not been done is disqualified for three years from relocating the claims. Progress of the mining industry, especially in Utah, where assessment work is not required to be done the same year the ground is located, has been greatly retarded by the license given claim holders to relocate the ground indefinitely. The making of many a good mine has thus remained idle on account of the locator holding out for an exorbitant price. The new decision of the land office says:

"The failure or neglect of any locator of a mining claim to perform development work of a character, in the manner and within the time required by the laws of the United States, shall disqualify such locator from relocating the ground embraced in the original location or mining claim, or any part thereof, within three years after the date of his original location. Any attempted relocation thereof by any of the original locators shall render such location void." any of the original locators shall render such location void."

Mining Notes.

Colonel J. L. Hackett, president of the The Lion Hill Consolidated Mining company, operating in Ophir district, has just marketed a carload of ore which netted \$716. Another carload of higher gradestuff is almost ready to be sent out. The company, it is said, has realized about \$6,000 from its shipments of the last three

UTAH COPPER'S NEW ROORD CODDED EXPEDT Cost of August Big Production Little UUFFER EAFEN Over 8 Cents.

Boston, Sept. 30.—To turn out its record production of 5,162,716 pounds of copper in August it cost the Utah Copper company a very small fraction over 8 cents a pound. Figuring on an average price of 13 cents for the month, the indicated profits were 5 cents a pound, or \$258,135 Declares That Ore Showing

Officials of the company say that the September output should exceed even that of last month. The two plants at Copperton and Garfield are practically up to capacity and are treating 8,500 tons of ore a day.

The Utah Copper company is earning approximately \$4 a share on 726,000 shares, of which but one-half is being paid out

New York Mining Stocks. Colonel J. L. Hackett, president of the Frince Consolidated Mining company, is due to arrive in the city today from his home in Louisville, Ky. After looking after his mining interests he will proceed to California on a business trip.

The Lion Hill Consolidated Mining company, operating in Ophir district, has just proceed to consolidated Mining company, operating in Ophir district, has just proceed to consolidated Mining company. Boston Mining Stocks.

Adventure ... 6.25 | Mohawk 61.00 stull is atmost ready to be sent out. The company, it is gaid, has realized about \$6,000 from its shipments of the last three months.

Manager S. M. Levy of the Pittsburg Mining company, who returned yesterday from the company's mine in Alta district, believes that thirty days' more of work will take the lower tunnel to the vein. The tunnel will tap the vein about 125 feet below the lowest level of the old workings, draining those workings as well as providing a much better outlet for the ore. Bodies of ore from which considerable production was made in the early days were opened in the upper workings.

Assay returns from an average sample taken across twelve inches of ore in the Silver Coalition Mines company's Emancipator tunnel show values of 217.83 ounces in silver, 35 per cent lead, 6 per cent copper and 20 cents in gold, or a total value of \$158.09 a ton. The ore in the tunnel is being sacked at the rate of seven and eight sacks a day. Secretary Pratt believes that the ore recently uncovered on the same vein about 600 feet south of the tunnel will run even higher than that of which assays were taken.

"Save the Difference" Speaking of the stock of the Chino Copper company having last week advanced to \$9 a share on the Boston curb. Core Even on a prescription. At the same

Large bodies of ore in absolutely new ground are being disclosed by development work which is being done on the seventy-foot level of the winze from the seventy-foot level of the Little Bell mine at Park City, according to Manager Solon Spiro. The drifts are penetrating a section of country which has never been explored and conditions there are exceeding all expectations. The ore bodies, he says, are making on the hanging wall of the lime belt, so that no one can tell what their extent may be. From development work alone the company is shipping from 350 to 400 tons of ore a month. In the Silver King Consolidated company and its predecessors for years past, if so they will add greatly to the value of the property. At the present of the capital stock of said corporate what their extent may be. From development work alone the company is shipping from 350 to 400 tons of ore a month. In the Silver King Consolidated company and its predecessors for years past, if so they will add greatly to the value of the property. At the present of the capital stock of said corporation, payable immediately to the secretary of the company, at room 402 Atlas bldc. City, Utah. Or to Sprtiz Voll & Co., 312 Traction Blds. Cincinnate work alone the company is shipping from 350 to 400 tons of ore a month. In the Silver King Consolidated company and its present price. There is a good prospect that other bodies in the market price are there is a good prospect that it will sell considerably higher. I would buy."

COMPANY'S FINAL ACT

IS TO PAY DIVIDEND

As a result of having sold to James C. Jensen of Heber for \$4,000 the last mining claimed it owned, directors of the Lower Mammoth Extension Mining company have posted a dividend of one and onehalf cents a share and have taken steps to disincorporate the company. The dividend is payable Oct. 20, the books to close Oct. 15. The company was capitalized for 200,000 shares, 76,000 shares of which are owned by J. R. Murdock.
